

Capability Statement for Prime Contractors

SBA-certified SDVOSB | VOSB

Senior .NET, SQL Server, and Azure engineering for your project team, specialized work packages, or defined deliverables.

Core technical capabilities

SQL Server	T-SQL, database design, stored procedures query tuning, normalization, troubleshooting
Data integration	Third-party APIs, webhooks, data exchange SSIS/ETL, system connections, SSRS reporting
.NET development	C#, .NET/Core, ASP.NET, MVC, Blazor, Web API REST, webhooks, WPF, Windows Services
Azure	App Service, Azure SQL, storage and identity Key Vault, monitoring, and CI/CD deployments
AI engineering	Multi-LLM design and development workflows independent cross-model reviews automated checks, and human oversight
Modernization	API integration, portals, document workflows e-signatures, legacy VB, Access, Excel
Technical leadership	Architecture, code review, mentoring, Agile Azure DevOps and CI/CD

Selected relevant experience

Supply chain	Inventory, purchasing, logistics, supplier portals TIBCO and JD Edwards integrations
Claims and healthcare	Claims workflows and electronic signatures EMR database design and VB-to-C# modernization
AI-assisted delivery	Multi-LLM design, implementation, and review structured work items and validation gates
